Professional summary

As a motivated and detail-oriented fresher in web development, I bring a strong foundation in HTML, CSS, and JavaScript, along with a passion for creating visually appealing and responsive websites. Eager to contribute my coding skills and enthusiasm for web technologies to a dynamic team, I am committed to continuous learning and staying updated with the latest industry trends. With a focus on problem-solving and a collaborative mindset, I am excited to embark on a fulfilling career in web development

Projects

- Chat-app using react and Firebase cloud storage

  Chat-app is a cutting-edge chat application, merging React's prowess for a responsive UI with Firebase Cloud Storage for secure data storage and real-time capabilities. Offering a feature-rich experience, it facilitates seamless communication with friends, family, or colleagues. The app's synergy between React and Firebase ensures reliability, making messaging with loved ones or collaborating with colleagues effortless. Bid farewell to message delays as Chat-app guarantees a smooth and immediate real-time communication experience. Elevate your conversations with this modern, user-friendly application that prioritizes both simplicity and security.

- Portfolio

  My portfolio showcases my proficiency in front-end languages, featuring diverse projects that highlight successful contributions to innovative solutions. With a focus on quality results, effective problem-solving, and collaboration, it reflects my adaptability across various
